---

## ABOUT ME

Aspiring final year computer science student with foundational skills in Python programming and familiarity in Web development. Eager to apply my technical skills and enthusiasm to a challenging role where I can continue to grow and develop professionally.

---

## ACADEMIC QUALIFICATION

<b>NSS College of Engineering</b> Computer Science and Engineering. CGPA : 7.41	2021-2025
<b>Kendriya Vidyalaya</b> Plus Two . Percentage : 84	2019-2020
<b>Kendriya Vidyalaya</b> CBSE X . Percentage : 93	2017-2018

---

## CORE COMPETENCY

- Python Programming
  - Front-End Development
  - Problem solving and Analytical skills
- 

## POSITIONS OF RESPONSIBILITY(POR)

Student Representative -STACS(Students' Association of Computer Science)

- Attended workshops on Web development
  - Actively participated in Hackathons
- 

## PROJECT

- **Decentralised Online Voting System**  
Developed an online voting system using blockchain which offers a secure method of conducting voting,using React,Solidity,Truffle.
  - **BlackHole Router Attack in Network on Chip**  
Implemented a simulation model to study the impact of Black Hole Router (BHR) attacks in Network-on-Chip environments using Gem5 Simulator.
  - **Portfolio website**  
Developed a personal portfolio site with responsive design using HTML,CSS and Javascript.
  - **Chat bot**  
Developed a versatile chatbot for diverse inquiries using HTML,CSS and Javascript.
- 

## INTERNSHIP

- Data Science and Artificial Intelligence,YBI Foundation
- 

## CERTIFICATES

- Python for Data Science,IIT Madras,June 2023
- 

## ACHIEVEMENTS

- Participated in HACKSPHERE HACKATHON at Solasta '24 held at NSSCE
- 

## SOFT SKILLS

- Communication,time management,Adaptability
- 

## AREAS OF INTEREST

- Programming,Web development
